

Ring Dryer

Function:

The Ring Dryer grinds, conveys and dries in one energy efficient system. The product has a short retention time of only a few seconds inside the Ring Dryer. This is the reason feather and blood meal from Mavitec's processes have incredibly high protein and digestibility levels.

Features:

- Extreme short drying time
- Short exposure to heat
Highest end-product quality, product digestibility and amino acid profiles
- Simple and accurate control of moisture content
- Indirect room air treatment
- Produces a consistent product without wet spots (salmonella), ready to bag or store
- Optional: Recirculates 50% of the heated exhaust air to save fuel and odour control costs.

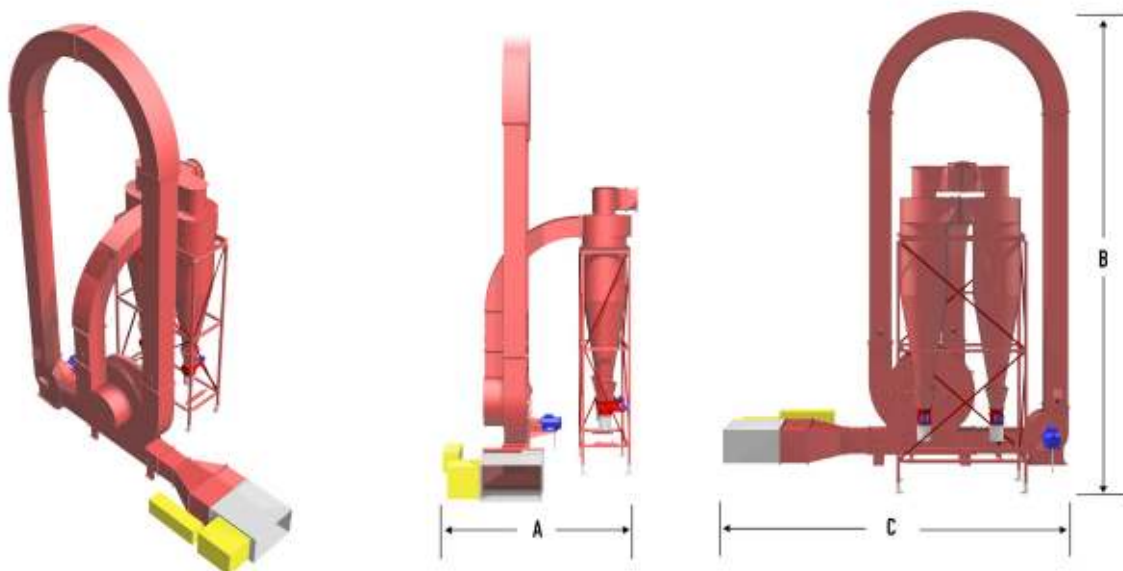

Evaporation capacity:

Up to 1.633 kg per hour
