

# Minicrusher

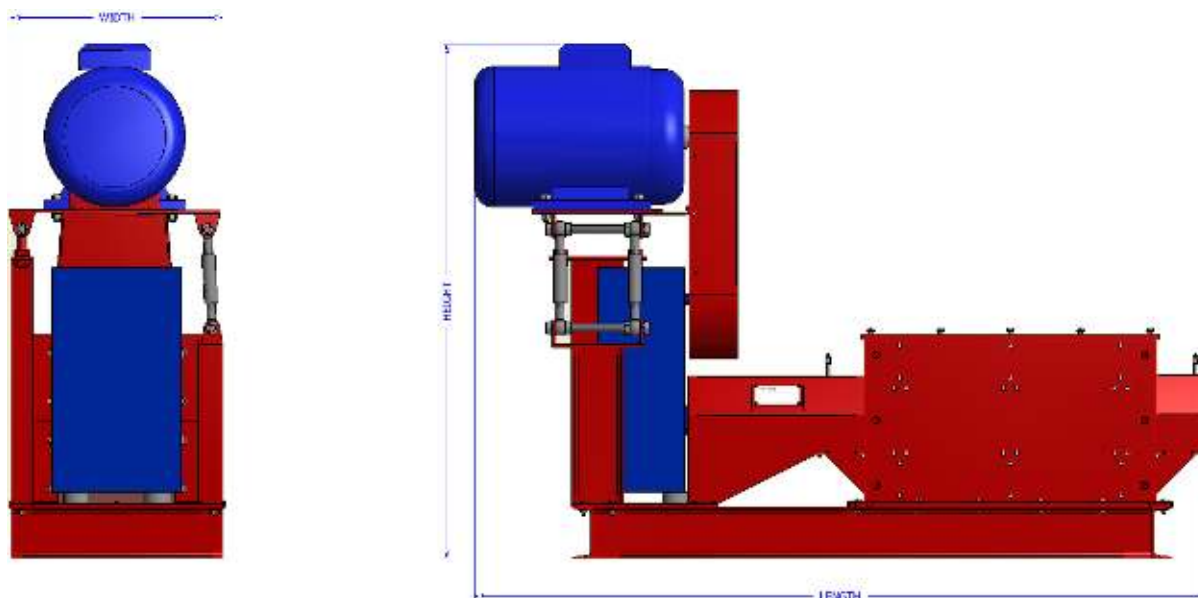

## Features

- Pre-break large pieces without preliminary cut-up.
- High-torque performance handles a broad range of feed stock
- Hardened machined teeth force material through the Minicrusher's rugged anvils with a low-speed shearing action instead of an impact or tearing action.
- The Minicrusher is designed to easily be able to remove parts for maintenance and replacing of parts.
- Shaft is completely customizable to swap out the 25mm blades for 12mm blades.
- Pre-break large pieces without preliminary cut-up.
